OUR COMMITMENT

We are committed to providing all-natural, high-quality candles with label designs your customers will be proud to give and display.

UPCYCLED WITH LOVE

We begin by personally gathering empty wine bottles from local businesses and friends. The bottles are then cut to standard size, cleaned, and polished.

ALL-NATURAL INGREDIENTS

SOY WAX

Soy is a natural, sustainable, renewable resource and the soy beans used to derive our wax are domestically grown. Unlike paraffin wax candles, our 100% soy wax candles burn longer and cleaner. And because they include no additives, Furbish & Fire candles do not release carbon or other toxins into the environment when burned.

NATURAL FRAGRANCES

We use only premium, phthalate-free, natural fragrances and essential oils in our candles and avoid dyes, additives, and preservatives to ensure that your candle avoids posing a health risk to you and your family.

LEAD-FREE WICKS

Our cotton core wicks are lead and zinc free. The natural flat cotton threads result in a consistent flame and even burn while reducing the release of harmful chemicals.

YOUR FURBISH & FIRE

LOW MINIMUMS

We offer low minimum order quantities of just 24 candles and encourage you to mix and match fragrances and designs.

FREE DESIGN

Our label design service is free and we look forward to working with you to make the most of your message.

FAST SERVICE

Orders will typically be processed in 7-10 days (excluding transit time). Please note that this time can be extended during busy seasons such as the winter holidays.

FLAT SHIPPING

We make shipping easy with flat rates designed to work with your business. Midwest and east coast customers can expect 10% of their total order cost and partners on the west coast, southwest and northwest pay only 12%.

We accept checks and all major credit cards.

We look forward to partnering with you and helping your business to share what moves you with exclusive candle designs.
